# YOU OWN IT....YOU CONTROL IT!

## TurboMeeting/TurboSupport Administrator Functions

**RHUB appliances provide you with full control of your Web conferencing, Desktop Video and Remote Support needs.**

**Security is paramount with your RHUB appliance. You control all aspects of security, especially access security. Install- behind your firewall, in the DMZ or outside - your choice**

**Branding and Integration are two key capabilities built into every RHUB appliance. Use your logo and your company name on the landing page or build your own landing page with integrated "host meeting" and "join meeting buttons.**

**RHUB Appliances are available in configurations to meet the needs of any organization:**

- **TM210/ TM270 – for Small businesses**
- **TM510/TM560/TS300 for Medium Size businesses**
- **TM600/TM800/TM1000/TS700 for Enterprises and larger businesses**

**Easily integrates with your audio system or take advantage of the built-in free audio conferencing system integrated with the internal VoIP conferencing system.**

**Customize your security certificate with your own SSL certificate to match your domain name/IP address**
