

# RHUB Real-Time Collaboration Hub

Secure Web Conferencing, Remote Support, Remote Access, Webinar for PC & Mac Users

## BENEFITS

- You own it, you control it
- Pays for itself in 3 - 5 months as compared to services
- Universal Attendance: No download of any kind- Everybody can join the meeting
- 6-in-1:
  - - Web Conferencing
  - - Remote Support
  - - Remote Access
  - - Webinar
  - Video Conferencing
  - Audio Conferencing
- Unlimited users
- No IT maintenance needed.

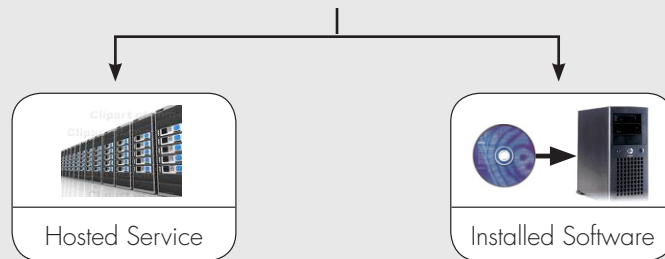

## RHUB Appliance: The Best Alternative To Hosted And Software Solutions

Solutions for audio, video and web conferencing, remote support, remote access and webinar are primarily delivered in one of two ways: via hosted (SaaS), or installed software. There are advantages and disadvantages of each. The RHUB appliance combines the advantages found in both models.

- No monthly fees
- Easy to deploy, one-time 10 – 30 minutes installation
- Harden on-premise security No IT maintenance needed. Firmware updated automatically.
- Full customization. APIs for integration with applications or websites

<b>Benefits:</b> <ul style="list-style-type: none"> <li>• Easy to deploy</li> <li>• No IT maintenance</li> </ul>	<b>Drawbacks:</b> <ul style="list-style-type: none"> <li>• Monthly fees</li> <li>• Weak security</li> <li>• No integration</li> </ul>

### 3 - 10 month payback.

Purchased once, used by everyone!

You own it. There are no monthly recurring fees. It can be paid off within 3 to 10 months, as opposed to monthly subscription hosted services.

It works on a concurrent licensing model (also called floating licenses), not named licenses as hosted services do. So ANYONE in your organization can host meetings without any extra costs or surprise billing.

It supports LDAP integration, which is secured by your firewall. With LDAP, the RHUB appliance can be deployed to every employee in minutes.

### 6-IN-1, OUTSTANDING VALUE

The TurboMeeting 6-in-1 appliance provides six solutions in one unit:

- Web conferencing – sales presentations, product demos, interactive collaboration
- Remote Support – remote desktop support for PCs and Macs
- Remote Access - access to office or home PCs from anywhere anytime
- Web Seminar – seminars for view-only attendees, guaranteed attendance
- Video Conferencing - Webcam based
- VoIP Audio Conferencing

## YOU OWN IT, YOU CONTROL IT!

The TurboMeeting Web conferencing appliance plugs into your network. You control users, access, and functions. You can authorize as many users as you wish, restrict the user to meeting types, or restrict meeting access by IP address as well as Meeting ID and Password. You can host unlimited meetings or support sessions with your employees behind a firewall or customers outside firewall.

### Technical Specifications:

Appliance installs on a LAN with 10/100 MB and 1GB Ethernet.

Can be placed outside/behind the firewall or in the DMZ.

#### Supported operating systems;

Windows 2000, XP, 2003, Vista, Windows 7, Macintosh 10.4 or later, both Intel and PPC processor

#### Universal Attendance mode:

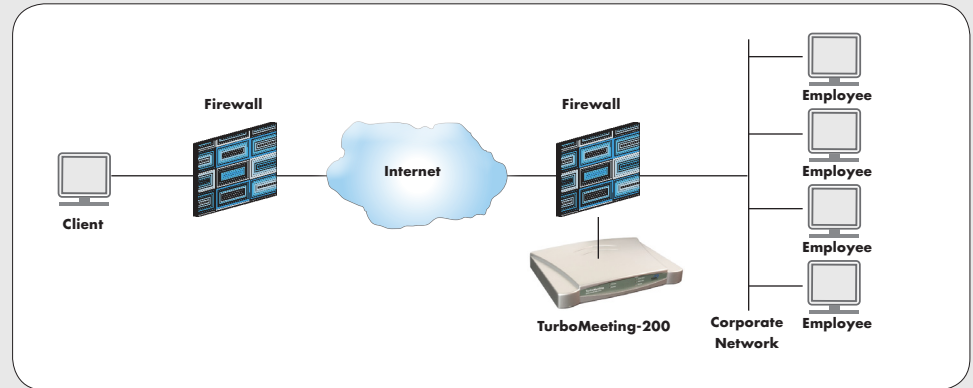

Supports any platform with a modern browser, including Windows, Mac, Linux, Unix, and iPhone/iPad.

#### Capacity Range:

From 2 concurrent meeting rooms with 10 attendees to 200 concurrent meeting rooms and 2,000 attendees

RHUB Communications Inc.,

You can brand the system and integrate it with your applications and websites. You can place "Host Meeting" and "Join Meeting" buttons on any external/internal home pages, or windows based applications such as audio conference or CRM systems.

## UNIVERSAL ATTENDANCE – ANYBODY CAN JOIN THE MEETING

The amazing Universal Attendance technology enables anyone with a modern browser, on any platform, to join a meeting. No download of any kind is required of them. The attendee is "view only" and can see the presenter's screen in a browser with the similar speed as the fully interactive client attendee who needs a download.

Just think - no firewall, antivirus products, lockdown computers, or unsupported platforms can keep your key meeting participants from joining. And, it is fast – just 5 seconds to join. No more waiting 10 and 15 minutes to start your meeting while everyone works to get clients downloaded and connected.
